

The award committee wants further to emphasize attitudes, skills and readiness to serve an organization by solving conflicts in a humble way. The federation needs representatives of member institutes who are ready to give up pursuing their own interests for the benefit of the organization and its aim. For these reasons we agreed unanimously to give the life time achievement award to **Agnes Dudler** for

- Constant contribution to FEPTO in her way to stabilize the organization in difficult times,
- Her skills and readiness to mediate in conflictual situations
- Serving in the board of FEPTO
- Starting and completing psychodrama training for children's psychotherapist in the dangerous area of Gaza together with Stefan Flegelskamp from 2012 to 2017.
- Founding an own, and after her retirement, still successful institute for psychodrama training
- Her engagement for peace, women and professional development in national organizations.
