REPORT OF ANNUAL MEETING COMMITTEE

Due to the global crisis caused by COVID-19, this year's AM and Conference in Ohrid was postponed for next year. Since the crisis still exists and is not calming down, it is now a question of whether or not we will be able to organize the AM and Conference for next year.

We have 90 people who have paid a fee for the Conference and AM. We sent information to everyone that the refund will have certain costs, first from our bank where Amygdala's account is located and then from the bank where their account is located.

We have also asked those who decided to have the money returned to them, to sign a document stating that the costs would be on their count. Five people sent us an email to get their money back and signed that they agreed that the bank charges should be paid from the money they paid for the Conference and the AM.

As president of LOC, I want to thank you for your patience and understanding

The refund procedure is a story that took 3 hours waiting for the bank clerk, who handles these cases, to be free and then to fill out and sign several documents for each person. But there is something to be learned from everything. So if there is a need for similar transactions now, I know exactly how it will go.

So the LOC is now ready for more challenges that the future and this global crisis may bring.

Taking into account the events of the Covid-19 pandemic, the Council will make a decision before the Christmas holidays regarding whether next year's AM and conference in Ohrid will be held. Or whether an online conference and online GA will be organized like this year instead.

The decision of the Council is that the first year possible to organize a Congress and AM with a personal presence, will be held in Ohrid. For all those who agree the funds that are now paid will be transferred for that purpose.

Report OF the Membership Committee

The membership committee believes that the care of the members is of great importance for the functioning of FEPTO and the achievement of the goals of our organization. That is why in cooperation with the Training Committee we organized an online workshop FEPTO INSTITUTES - PRESENT SITUATION AND NEW POSSIBILITY.

FEPTO is an organization that includes training and accreditation organizations. So the members are invited to the workshop with their representatives. The workshop will first aim to meet the members, to share the experience they were facing this past period, what they have learned and gained from this crisis and what problems they have. Together we will look for tools to solve the difficulties.

The Membership Committee will maintain a connection with the institutes that were supposed to be guests of the AM and will establish contacts with other institutes to help them reach the minimum training standards and join us at FEPTO.

Mirjana Jovanovska Stojanovska

Chair of Annual Meeting and Membership Committee
