

Congratulation to our FEPTO RC member Dr. Jutta Fürst,

who has been recently honoured by the University of Innsbruck for her dedication and hard work to offer Psychodrama training at the university. Her focus to integrate research in training and to fulfil high academic standards in aiming at a research informed training and practice is one of her great achievements. Let's quote Marcia Karp:

Dear Jutta,

To have your 20 year public university programme for psychodrama psychotherapy training recognised by the government is such a fine accomplishment. To include the research from FEPTO members is an excellent way to be seen and accepted into the scientific community.

Love, Marcia

Congratulation on behalf of our FEPTO Research Committee!

Johannes Krall
Chair of FEPTO RC
