

CONFERENCE '2019
CALL FOR WORKSHOP PROPOSALS
May 17th to 19th

until 31.01.2019

CALL FOR WORKSHOP PROPOSALS

In this FEPTO Conference we will combine action for development and mindful, focused presence with perspectives based on neuropsychology, psychodrama, sociodrama, axiodrama and sociometry. Morenian theory and methodology is practiced in (inter-)action with individuals and groups. There are a lot of connections between the practice of psychodrama and sociometry and modern research on neuropsychology and approaches to mindfulness.

The key note speakers offer perspectives from neuropsychology and mindfulness onto action and presence in the context of learning in psychodrama. These are linked with core theories and practice of psychodrama and sociometry.

For the conference we are looking for experiential workshops that will concretize and explore these connections. The 2-hour workshops should:

Be in English (no translation)

Explore a specific topic relevant to the theme of the conference

Provide a theoretical frame and practical experience for a group of up to 20 people

The proposal should be sent in by **January 31st, 2019**:

The title

The workshop leader(s) + short description

Short abstract, incl.

topic and the approach

description of methods / process that will be used

Contact information

Submit your own proposal as soon as possible, no later than January 31st, 2019, here:
