Dear Colleagues, dear Friends,

We are only a few weeks away from our next Annual Meeting in Tallinn, Estonia. We are looking forward to meeting you all. As it has been already announced, the theme of the Annual Meeting this year will be: “From Creativity to Functionality: Prosperous Members in a Flourishing Organization”. Our goal for the forthcoming event will be two-fold: to continue working on some of the core functions of our Federation and secondly, to give space for new ideas, projects and training topics that can contribute to the further flourishment and development of FEPTO. In the current issue you can find more details about the small groups and the activities planned for the event.

Furthermore, the term of the present FEPTO council will be completed and a new one will appear after the elections of the 21st May. We want to thank you all for the trust and the support you have provided us over the past two years. We also seize the opportunity to invite the ones of you that are interested in getting more involved in the FEPTO community, to be candidates for the next council.

We deem that those two years have been a time of significant development for our community. A lot of emphasis has been placed in the improvement and facilitation of communication among our members, with our recently launched online platform, the FEPTO Forum. Additionally, the decision for the publication of the FEPTO journal is another significant step that was taken. We are also very satisfied with the progress of the project focused on the systematic descriptions of key Psychodrama concepts and its relations to current educational and therapeutic approaches as well to making Psychodrama more visible on the Web and understandable to the whole of society. It is a time of growth and change for our community, as well as for Europe and the World. We are trying to keep up with the changes taking place around us and to contribute with the use of our unique tool, Psychodrama for the best possible outcome. The present council has tried to serve this goal and we are sure that the next one to follow will continue to do so!

With lots of appreciation and gratitude,

Nikos Takis  
*President*

Krzysztof Ciepliński  
*Vice President*
