Goal of this meeting:
This meeting will look at different ways how research in psychodrama can be conducted. Different quantitative and qualitative methods will be presented and discussed: “Beyond numbers and words - measuring and understanding psychodrama”. The general aim of this meeting is to support scientific work and research activities in psychodrama in different professional areas of practice. In our research committee Meeting we also want to deepen our research cooperation and networks by working on research designs, research tools, processes and results in applied psychodrama research. In our meeting there will be time for presenting and discussing research projects, creating research ideas and sharing research experiences. And finally, we want to think about publishing our studies in order to share it with our psychodrama community and beyond.
