

Dear Colleagues!

Council of the Russian Association of Psychodrama regretfully and sorrowfully reports that on Monday morning, January 22, 2018, after a serious long illness passed away Nifont Dolgoplov, one of the leading Russian psychodrama therapists, director of the Moscow Institute of Gestalt and Psychodrama, co-founder FEPTO,

Nifont for a long time courageously fought with a deadly disease and continued to conduct the groups, accept clients and lead the Institute.

In our memory, Nifont remains strong, courageous, kind and sympathetic, always with an open smile and a wise look, ironic and straightforward, honest and subtly sensing, a talented psychotherapist and writer.

This is a huge loss for all of us.

Very sorry!  
We grieve!

Elena Lopukhina - President of the Association of Psychodrama, Russia, director of the Institute of Psychodrama, Coaching and Role Training, founding member FEPTO.

Ekaterina Mikhailova - Vice-President of the Association of Psychodrama, Russia, director for research, supervisor and coach of psychodrama training programs of the Institute of Group and Family Psychology and Psychotherapy.

Viktor Semenov - Vice-President of the Psychodrama Association, Russia, director of the Institute of Psychodrama and Psychological Counseling.
