

Dear Colleagues and members of FEPTO Community,

The last weeks we are all very puzzled with the corona virus. Many countries in Europe and worldwide are already paying a heavy price from the spread of this highly contagious virus. We express our wholehearted support and solidarity to all who suffer the consequences of this worrisome situation the globe is going through.

We are also concerned about the forthcoming events that our colleagues from the Local Organising Committee of North Macedonia are preparing, the 15th FEPTO Conference and 28th Annual Meeting. We have not taken any decision yet on whether they will take place or not. This will depend on how the situation with the corona virus will be evolve in the next few weeks. We are closely monitoring the whole situation and of course, we will notify you for any other development or decision.

Since many of us have already registered for both events, we would like to inform you that due the emergency situation with the corona virus, Hotel Metropol will not charge FEPTO and Amigdala (the organizing Institute) any penalties. Furthermore, there is no deadline for cancelling the Conference and AM and those who have paid for accommodation in case of delay will be refunded.

These are the news we can share with you for the time being. Feel free to contact us in case of any question or comment you want to make.

On behalf of the FEPTO Council
Nikos Takis, Chantal Neve Hanquet, Judith Teszáry
