

**CONFERENCE & ANNUAL MEETING'2019**  
**CALL FOR POSTER SESSION AND EXHIBITION** at the  
**FEPTO Conference and Annual Meeting**  
**Tallinn, Estonia**

until 28.02.2019

**CALL FOR POSTER SESSIONS**

FEPTO, an organization assisting European and Mediterranean countries, is a great international platform for exchange and support for member institutes and all persons who are interested in psychodrama and related methods. We try to make psychodrama practice/training more effective, recognisable and fruitful for society.

Our approach is capacious and flexible, we can apply it in many forms and contexts: individual, pairs, small and large groups, clinical/psychotherapy work, education, social work, health promotion, etc.

As a FEPTO council we would like to announce and invite you to present your work as a poster which will be shown at the forthcoming FEPTO Conference and AM in Tallinn, May 2019.

The goal of this project is to open an additional space for the participants to share the current activity in the field of psychodrama (including sociodrama and sociometry) and action methods with the audience of these FEPTO annual events.

We trust, that it will be interesting for all participants to see what kind of research you are actually undertaking or what kind of best practice/training you conduct .

**You are friendly invited to present your good practices or/final research findings in graphic form as a poster.**

Posters can be prepared by the individual member or by the team of co-authors. After the poster session the best posters will be awarded! Encourage yourself and your colleagues – get your students involved!

#### **THE GUIDELINES AND FORMAL REQUIREMENTS FOR A POSTER PREPARATION**

- What makes a good poster?
- Important information is readable from about 3 meter away
- The maximum size of the poster is A0 (841x1189 mm)
- Title is short, clear connected to the content and draws interest
- Text is clear and to the point, use between 300 to 800 words
- Use of bullets, numbering and headings makes it easy to follow
- You can also use graphics, colours, charts, photos, images
- Choose consistent and clear layout
- Think of what the most important/interesting finding in your research or other project is

**FEPTO Conference and AM**  
**Tallinn, Estonia**

until 28.02.2019

and make it visible for the readers

Posters should be prepared in English, please check language .  
What software can be used to make a poster?

The easiest way to prepare a poster is to outsource this to a professional graphics company, but you can also prepare it yourself using helpful software.

You can use licensed software like **Power Point** (a part of **Microsoft Office** package) as well as **Adobe Illustrator, Photoshop** or **In Design**.

Another **possibility is to use Open Source software** like **Open Office** (impress is its Power Point alternative) **Inkscape** and **Gimp** (alternatives to Adobe products). For charts and diagrams, you can use e.g. **Gliffy** or **Lovely Charts**.

Please compare: <https://guides.nyu.edu/posters>

How to prepare and send your application?

Please inform us about author (co-authors) full name (s), affiliation and the title of the poster. Also send an abstract in English summarizing the content within 100 to 200 words. Include the information about the size of the printed version of your project.

Please visit the FEPTO Conference and AM Website, where you will find the link for the application form or click here

[Application for poster session](#)

**The deadline for sending posters is 28 of February 2019.** Confirmation of participation will be 15th March 2019.

Please, share your research and professional experience with others! Let your flower be visible!  
Make FEPTO a more flourishing organization!
