Membership Committee for the proposed changes in the Constitution

Especially now, during this period of isolation and great turmoil in Europe and across the world, taking care of FEPTO members in addition to the functioning of the Federation are primary goals for all of us.

FEPTO has been in existence for 30 years and during this time it has gone through many political, economic and social changes that have left a mark on its functioning. It is up to us to fight for psychodrama to take the place it deserves in this modern society. One of the ways to secure the place we deserve is if we adapt to change. One of the most important changes is the amending of the Constitution which must reflect the current situation in the Federation.

Many institutes have ceased to function in recent years for a variety of reasons. This endangers the functioning of FEPTO according to the Constitution, i.e. the validity of the voting.

In order to provide conditions for functioning according to the Constitution, several important proposed changes have been adopted
