

Psychodrama.World

FEPTO Project

Dear Colleagues,

The Website www.psychodrama.world was voted on at the FEPTO General Assembly 2020 to become a FEPTO-project. This website is a user-friendly, free, online library of articles and contributions in order to promote the interchange of knowledge about Psychodrama theory, history, practice, research and it's integration with other approaches. The website is fully functioning, actually in three languages: English, French and German. The English version is the main version and others in different languages are also possible, following the structure of the English version.

Since the General Assembly, we continue our work as a project group, even though we have all been busy coping with the extraordinary health situation at work and at home. Our goal is to present a fully functioning website at the next Fepto meeting.

The English version is the matrix of Psychodrama.World. We would like to complete this with articles, podcasts and videos in the next few months so that we can check the functioning of the website and make further improvements. Please send us articles, podcasts or videos in English so that we can continue the work on the project.

You can submit your article, podcast or video directly online on our platform: www.psychodrama.world. Requirements for the publication of your contribution:

Structure of the text:

Title (max.10 words)

Eventual Sub-Title (max. 30 words)

First name and surname of the author/s

Name of the FEPTO Institute or organization to which the author refers

Abstract (5-10 lines)

Text, Notes and References

Brief bios and description of the activities of the author/s, including contact details (e-mail address and/or tel. number)

A lot of work waits us in the near future:

we will further develop the structure and design of the website

we will organize the financing and a plan of fund raising contributions

we will define the legal frame work and quality criteria

we want to expand the already existing German and French language versions and create also other language versions

we need to continue the work to clarify the responsibilities and rules of cooperation with the FEPTO Council and FEPTO members.

finally we have to publish these contributions - with Wordpress – this is relatively easy but it all takes time...

If you are willing to contribute to the development of psychodrama.world and invest some time and energy in one of the tasks, please contact Roger Schaller (schaller@ipda.ch) – we would all like to welcome you to our project-group.
